CLIMACOOL®

CLIMACOOL®

Technology that provides ventilation and regulates temperature and perspiration thanks to highly efficient materials that optimise performance.

PU3G INNOVATION

PU3G is a material that looks, feels and performs like leather. Extremely strong, 3G can continually absorb perspiration while remaining supple and impervious to cracking

I-PROTECH+

Exclusive to adidas this technology features an Intelligent mould structure with additional integrated

I-PROTECH®

**PU3G
INNOVATION**

RESISTANCE +20%

Stretch tests have demonstrated that polycotton is 20% stronger, against the same force and with the same density of weave per m², and shrinks less after the first washing (30°C) by 15% (compared to %100 cotton).

2 SIZES IN 1

This unique patented system consists in a removable hem that enables you to adapt the length of jacket and trousers. The kimono grows with your child.

EDITORIAL

2010: adidas innovates once again in combat sports.

For over 80 years, adidas has been paramount in the world of sports, using innovation and technology to develop footwear, apparel and equipment that enable you to achieve your maximum potential.

This is why adidas attentively listens to those who practice boxing, judo jiu-jitsu and karate and works closely with top athletes to design, create and manufacture new ranges of equipment. Today, many partners trust the adidas brand: AIBA, FFBoxe, MMA, FFLutte, FFJudo, International Judo Federation, World Karate Federation, FFkaraté (karate, karate-contact, Vietnamese martial arts).

A direct result of adidas innovation, our new moulded gloves absorb shock better thanks to the addition of a specific I-PROTECH® technology gel. CLIMACOOL® technology, which is already widely used in adidas sports equipment, provides better ventilation for most boxing gloves and "combat" karate kimonos.

Most adidas judo kimonos are made of a special polyester and cotton blend offering 20% greater resistance to stretching (compared to 100% cotton kimonos with the same weave), and less shrinkage after washing. Moreover, these kimonos are guaranteed 10 years thanks to their unique thread.

Most of our boxing head guards benefit from I-COMFORT+ technology, an antiskid and hygienic lining material.

Toady, you can discover a completely new line of products for combat sports. Our goal is to enhance your performance and enable everyone to access these sports, particularly children, who need to discover them in conditions of optimal safety and comfort.

The adidas team

**adidas supplied gloves and head guards for Beijing 2008 Olympics
& 2009 World Amateur Boxing Championship in Milano/Italy exclusively.**
