The boxing bag “Classic” is the boxing bag, we have produced since the start in the early 80’s. Very strong and suitable for everybody, at home or in the gym. The “Classic” is made of very durable and reinforced new bisonyl. On the sides of the bags there are 4 loops, which can be connected with a chain, making it possible to hang the bag from a ceiling. All the seams are stitched several times to expel tearing out. The boxing bags are filled with textile snips. These textile snips are taken new in stock, in order to prevent mouldy and nasty smelling of the bags and to be sure that there are no iron parts or other heavy parts in the filling. This filling provides an excellent absorption for your hands, feet and legs.

The boxing bags will be delivered with a chain and packed in strong, transparent plastic. Available in black, red and blue and in the following lengths; 80 cm, 100 cm, 120 cm, 150 cm and 180 cm, all with a diameter of 35 cm and a junior bag of 70 cm with a diameter of 25 cm.

There are hundreds of mass gainers on the market, but how many do you know of that will match the above profile? If you are looking for the ultimate mass gainer you have found it: Ultra Mass. STACKER-2 VITA BOOST (120 capsules)

Vita Boost is an extreme-dose multivitamin supplement. The human body is incapable of making most vitamins and minerals itself, so you have to get them from your food. A well-balanced diet contains sufficient vitamins and minerals, but a hectic lifestyle and eating on the run don't always make it possible to get all the nutrition you need. It becomes even harder if you train intensively, because that is when you have an increased need for nutrients (such as the B vitamins). For sports people additional protection against harmful free radicals is also advisable. Vita Boost gives you exactly the support you, as a sports person, need to maximize your health.

- Healthy balance of essential vitamins and minerals.
- Contains antioxidants.
- Pharmaceutical-grade product.
- No risk of overdosing.
- A conscious and safe choice.

STACKER-2 LIQUID AMINO (32 oz)

If you're into sports you need the right amino acids. In addition to a balanced composition with sufficient BCAAs and Glutamine, the form in which the amino acid is offered to your body is essential. This fast acting STACKER-2 Liquid Amino is a conscious choice over a slow acting protein supplement.

- 30.600 mg of powerful amino acids per serving.
- Acts super fast and effectively.
- Amino acids from whey protein hydrolysate.
- Supplies free-form amino acids.
- Without a doubt the best tasting liquid amino acid supplement ever.

STACKER-2 BCAA ETHYL ESTER (180 caps +10% free)

Amino acids are the building blocks of your muscles. If your body does not get enough amino acids your muscle soreness will last longer, you won't get as big and you can't train as intensively. The branched chain amino acids in particular are essential to protein synthesis, and therefore invaluable if you want to get really big. BCAA consists of the three amino acids L-Isoleucine, L-Leucine and L-Valine.

- Invaluable in a heavy workout schedule.
- The ideal 2:1:1 ratio.
- Ester technique enhances absorption into the body.
- BCAAs are available immediately for building muscle.
- Increased protein synthesis, improved nitrogen retention.
